Education

Aditya Engineering College

CGPA: 8.53

B.Tech, Computer Science and Engineering, Expected June 2026

Andhra Polytechnic College

Percentage: 92.4

Diploma, Computer Engineering, June 2023

Skills

- **Programming:** C++, Python, Java, SQL
- **Full-Stack Development:** HTML, Tailwind CSS, JavaScript, React.js, Node.js, Express.js, Django
- **Databases:** MySQL, MongoDB, PostgreSQL, Redis
- **Cloud & DevOps:** AWS (Lambda, EC2, S3), Docker, Linux
- **Concepts:** Data Structures & Algorithms, OOP, Networking (TCP/IP, HTTP, DNS), Operating Systems
- **Tools:** Git, GitHub, Postman, Agile/Scrum

Projects

• InsightFlow Multi-Tenant Analytics Platform [[GitHub](#)]

Tools: Django, React.js, PostgreSQL, Redis, Docker

- Built a multi-tenant analytics platform with secure workspace level data isolation.
- Implemented OAuth authentication, RBAC, and tenant switching for secure access control.
- Optimized dashboard APIs using Redis caching and Django query optimization techniques.
- Containerized frontend, backend, PostgreSQL, and Redis services using Docker Compose.

• Event-Driven Analytics Platform [[GitHub](#)]

Tools: Node.js, Express.js, RabbitMQ, CQRS, Docker

- Designed an event-driven analytics platform handling 10k+ events per minute using RabbitMQ.
- Applied CQRS to separate write services and analytics read models, improving query speed by 40%.
- Developed asynchronous event consumers to process activity streams with sub-second latency.

• Multi-Tenant SaaS Platform [[GitHub](#)]

Tools: Node.js, Express.js, PostgreSQL, React, Docker, JWT

- Architected a multi-tenant SaaS platform supporting with RBAC-based access control.
- Implemented JWT-based authentication and authorization for secure access control.
- Containerized services with Docker Compose, cutting setup and deployment time by 40%.

Experience

• Partnr Network

Dec 2025 - Present

Trainee

India

- Built backend systems including event driven and multi tenant applications using Node.js and Django.
- Implemented CQRS and Outbox Pattern architectures using Kafka and RabbitMQ.
- Developed microservices using PostgreSQL, Redis, Docker, and Apache Kafka.
- Managed and deployed containerized applications with Docker Compose.

• SBTET AP

Jan 2023 - June 2023

Front-End Development Intern

Mangalagiri, India

- Built responsive dashboards and UIs to automate affiliation workflows, boosting efficiency by 60%.
- Collaborated in Agile team for UI/UX design and performance tuning, reducing page load times by 20%.

Certifications & Achievements

- **AWS Certified Developer – Associate**, [Amazon Web Services](#)
- **Docker Essentials: A Developer Introduction**, [IBM](#)
- **Postman API Fundamentals Student Expert**, [Postman](#)
- **Programming Essentials in C++**, Cisco
- **Solved 950+ coding problems** across [LeetCode](#), [GeeksforGeeks](#), and [CodeChef](#).
- **Top 10 Finalist** in Project Space 2025, securing 9th place out of 123 teams.
